01 / Profile

Fourth-year BS Computer Science student at the University of San Jose-Recoletos. I build web and backend systems and have worked on database, AI, and computer vision projects.

Current direction: especially interested in cybersecurity, including network security, vulnerability assessment, and system protection.

02 / Selected work

TIMBLE

IN DEVELOPMENT

Timetable planning workspace for subject offerings, open sections, and class schedules. Uses historical enrollment and curriculum data to suggest section numbers.

Garbage Intensification

BACKEND / AI

Analyzes hourly community CCTV snapshots to estimate garbage buildup by area for LGU waste management. Contributed to the backend and model training.

EduTrack

WEB APP

University student performance tracking system for monitoring academic progress.

Printing Section System

OPERATIONS

Digitized print requests, cost computation, and transaction logging for the university printing section.

Face Recognition Attendance

COMPUTER VISION

System that identifies students by face and records attendance automatically.

LEARNING & PARTICIPATION / 03

IPBL Program: Autonomous Quadruped Challenge (2026)

Blockchain Tech Workshop: Coding Smart Contracts in CashScript, by Paytaca (2025)

EDUCATION / 01

BS Computer Science

University of San Jose-Recoletos

2023 - Present

TOOLKIT / 02

WEB & BACKEND

Python | JavaScript | React | Django | Laravel | FastAPI | SQL | REST APIs

ALSO WORKED WITH

AI | Computer vision | Git / GitHub

CURRENTLY STUDYING

C# backend | Cybersecurity

RECOGNITION / 03

Top 25 Qualifier
Philippine Startup Challenge XI, Central Visayas / 2026

Top 10 Team
SCS Hackathon / 2026

2nd Runner-Up
SCS Days Computer Quiz Bowl / 2024

JLPT N5
Passed / 2026
