COMPUTER SCIENCE STUDENT · CEBU, PHILIPPINES

Making ideas work in the real world.

I build thoughtful web systems and explore how technology can solve everyday problems.

ABOUT ME

I'm a fourth-year computer science student at the University of San Jose-Recoletos. I enjoy understanding how things work and building useful software to solve real problems. My main focus is web development, with hands-on work in backend systems, databases, AI, and computer vision. I'm particularly interested in cybersecurity and am studying it alongside C# backend development.

WHAT I WORK WITH

Python | JavaScript | React | Django | Laravel | FastAPI | SQL & databases | REST APIs | Computer vision | AI | Git / GitHub

CURRENTLY STUDYING

C# backend development | Cybersecurity

FROM IDEA TO WORKING SYSTEMS

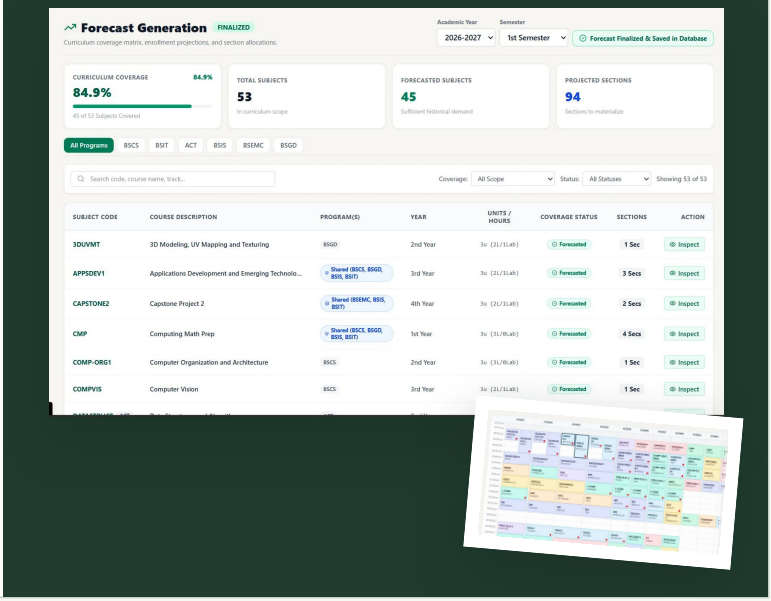

Work in motion.

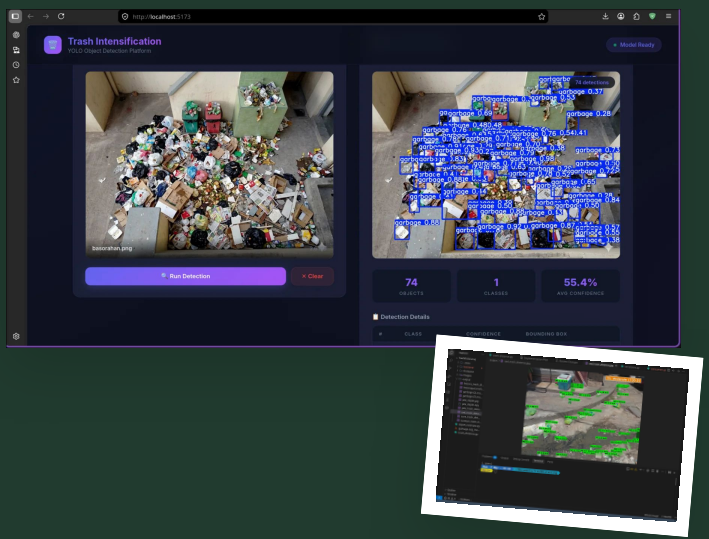

FEATURED PROJECT / 01

TIMBLE

A timetable planning workspace for subject offerings, open sections, and class schedules. It uses historical enrollment and curriculum data to suggest suitable section numbers.

CENTRAL VISAYAS TOP 25 · PHILIPPINE STARTUP CHALLENGE XI

PROJECT / 02

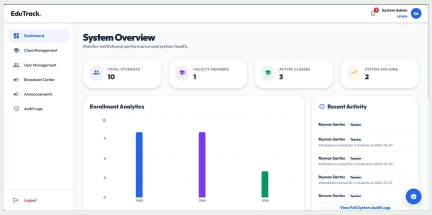

Garbage Intensification

Analyzes hourly snapshots from community CCTV cameras to estimate garbage buildup by area and help local governments manage waste.

MY WORK: BACKEND & MODEL TRAINING

MORE SYSTEMS I'VE BUILT OR HELPED DEVELOP

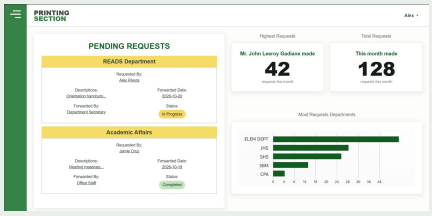

Useful by design.

PROJECT / 03 · WEB APP

EduTrack

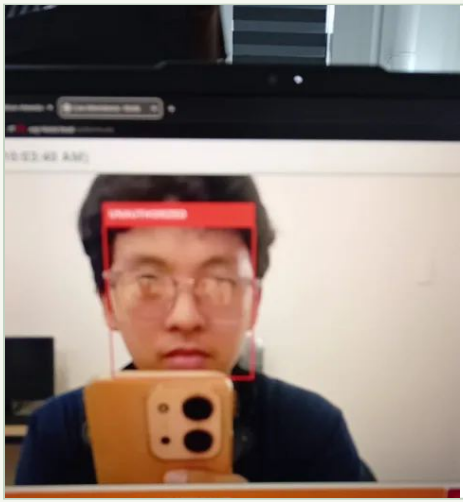

A university student performance tracking system designed to make academic progress easier to monitor.

PROJECT / 04 · OPERATIONS

Printing Section System

Helped digitize print requests, cost computation, and transaction logging for the university printing section.

PROJECT / 05 · COMPUTER VISION

Face Recognition Attendance

An attendance system that identifies students by face and records attendance automatically.

MILESTONES ALONG THE WAY

Proof of practice.

COMPETITION HIGHLIGHT / 2026

Top 25 Qualifier

Our TIMBLE team qualified for the Central Visayas Top 25 of the Philippine Startup Challenge XI.

COMPETITION / 2024

2nd Runner-Up

SCS Days Computer Quiz Bowl

COMPETITION / 2026

Top 10 Team

SCS Hackathon

LANGUAGE / 2026

JLPT N5

Passed the Japanese-Language Proficiency Test N5

CERTIFICATES ON RECORD

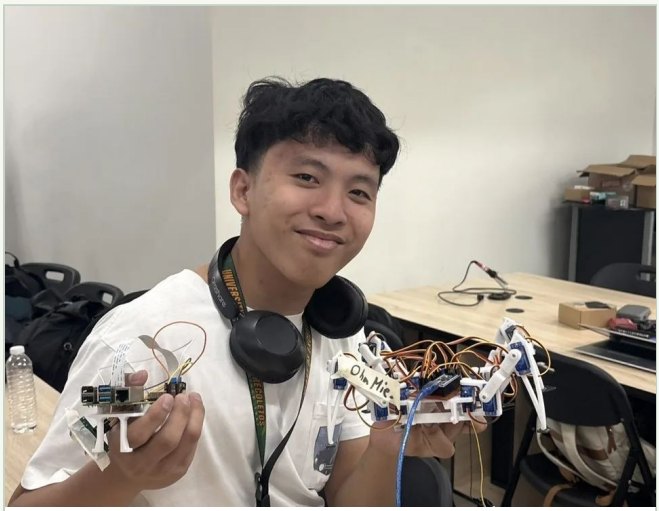

SCS Days Computer Quiz Bowl · 2nd Runner-Up

Japanese-Language Proficiency Test · N5

LEARNING TOGETHER, BEYOND THE SCREEN

Keep building.

INTERNATIONAL COLLABORATION

Project-Based Learning

Worked through practical challenges with other students in the International Project-Based Learning program.

WORKSHOP PARTICIPATION

Blockchain & CashScript

Took part in a two-day Paytaca workshop focused on coding smart contracts in CashScript.
